Be sure to read Geert Van Kesteren's [poignant story](#) about 'music, my photograph and a good looking girl' on the [Magnum Photos Blog](#).

While you are at it, check out Van Kersteren's *Why Mister, Why?*

1. No comments? Why mister why is a fascinating book, before its time or biding its time. Four years minus four days have passed. When it is all over, book publishers and editors will flock in and bring out the stories and photographs of all those Samirs.

nb. Good to see the magnum blog loosening up a little and removing its bowtie.
