## At the bar

Filed under: [minnesota](#), [photographs \(mine\)](#) — alecsothblog @ 7:53 pm

A couple of people have written asking to see more from my series *At The Bar*. I don't have them all scanned, but here are a few...

1. Thanks. Somehow the cherry is still best of the bunch.

2. It's always interesting to see photographer's early work (especially when it's quite different ie-format, approach, B&W, early influences etc) and see how they got to where they are now.

Reminds me a little of Larry Fink.

3. I like them all, but especially the one of the woman's hands w/cig.
