10. Hey, thanks for the positive feedback. I finished the book after midnight and only had one non-English speaking press guy to celebrate with.

Comment by Alec Soth — September 17, 2007 @ 10:11 pm

11. It looks to me like those are stacks of uncut pages which would mean the images will not have the rounded corners.....I could be wrong though; None the less, I can't wait for my copy to come in.

12. Congrats! Looking forward to seeing it. Is it really finished this week with a release date of Oct. 1?

13. Congratulations Alec.

I, like half of the world, eagerly await a copy. My wife just sneers when i tell her Its kind of like giving birth, you must be exhausted. Wish the sun was shining in Seidville, but I sort of doubt it.

ENJOY, i know I will...

20. Congrats! I'll have a celebratory beer for you. Isn't it Oktoberfest time?

Two thoughts when I saw this; one - when will my amazon pre-order become a shipping order and two - donde están las esquinas redondeadas?

28. Congratulations Alec!

I am looking forward to getting this book.

I wonder if there is any chanced to get a signed copy?

I love your work and it will be great to have a signed copy if you make them available at one point.

Enhorabuena!

29. Thanks again for all of the nice comments. Here are some answers to your questions:

- Except for one picture, the rounded corners are gone. I made this decision some time ago.
- You can never trust the release dates you see on Amazon and other sites. These books are produced in such small numbers that you are always at the mercy of the publisher and press.
- You really can't trust anything on those sites. The cover is different too.
- The final price of the book will be lower than you currently see online. Don't worry, if you pre-ordered the book, you will be charged less. More on this after it is official.
- I'm sure that signed copies will be available from the Magnum book store in the future.

31. Those stacks look very familiar to me. I spent a week with german publisher Kehrer Verlag in Heidelberg a few years back. Congratulations on the book – did you get to save a few of those sheets?

Comment by Jonathan Elderfield — September 19, 2007 @ 10:39 pm

32. The pre order price at amazon for all new Steidl books and BOGOTA DOGS are unbelievable cheap. 37% under list price .uh Steidl starts to beat Taschen ! Na denn mal Prost.

38. I just received an e-mail from Amazon indicating that the release date of the book has ben delayed ... and shipping will not happen until December ... is that for real? Any information on why the book has been delayed? Perhaps is just a case of printing capacity and pre-order demand?

Thanks

Miguel
